We just recently had OES scoreboards and videoboards installed at our Rose Park Sport Fields Complex baseball and softball fields. The boards look fantastic. It was a difficult installation operation with rock filled terrain in the dead of winter. We had previously purchased scoreboards and videoboards in our Curb Arena so working with Clyde, Dave and Marek again was a pleasure. I really like their boards but even more importantly, they are so professional and were easy to work with on both projects. Their customer service is outstanding! I would highly recommend OES for your scoreboard and videoboard needs.
